

Advancing Women's Empowerment:

How to Inspire Use of HIV Prevention Innovations Among Young Women?

A UN CSW Parallel Event

On March 20th, the United States Agency for International Development's (USAID's) Center for Accelerating Innovation and Impact (CII) co-hosted an event parallel to the 61st session of the UN Commission on the Status of Women with the International Partnership for Microbicides (IPM), AVAC, the Dalberg Design Impact Group (DIG) and the NGO Commission on the Status of Women Forum. Titled ***Advancing Women's Empowerment: How to Inspire Use of HIV Prevention Innovations Among Young Women?***, the session sought to better understand the lives of adolescent girls and young women who might use the dapivirine ring microbicide by gathering insights from civil society actors working across the women's empowerment and economic empowerment space. Learn more about CII's work with Human-Centered Design here: www.engagehcd.com.
